

ACTION IN AN EMERGENCY

In the event of an alarm, the building must be evacuated using the shortest route possible. Use the signposted escape and rescue routes and go to the assembly point.

ACTION IN CASE OF FIRE

1. Keep calm.
2. Report the fire.
3. Get to a safe place.
4. Try to put it out.
5. Follow instructions.

ACTION IN CASE OF ACCIDENTS

1. Keep calm.
2. Report the accident.
3. Provide first aid.
4. Notify first responders.
5. Follow instructions.

ACCIDENTS AND CASES OF DAMAGE SHOULD BE REPORTED IMMEDIATELY!

VISITING COMPANIES WILL BE SEPARATELY BRIEFED ON ALL REQUIRED RULES OF CONDUCT.

PLEASE WEAR YOUR VISITOR PASS SO IT CAN ALWAYS BE CLEARLY SEEN!

SAFETY INSTRUCTIONS

Visiting the factory area is only permitted when accompanied by a member of staff.

Smoking and open fires are prohibited everywhere on the factory premises, including vehicles.

Bringing and consuming alcoholic beverages is prohibited everywhere in the plant.

Eating and drinking is not permitted in all working areas, where chemical products are made.

Watch your hands and do not touch machines or installations.

Photography and filming is only permitted with express permission.

Please use the pedestrian areas marked in yellow.

A maximum speed of 10 kmh applies on the factory premises. Factory traffic and pedestrians have priority. German national traffic rules apply.

In some areas, personal protective equipment must be worn, e.g. safety glasses.

Wear hearing protection in designated areas.

Enter designated work areas only with safety shoes.

Mobile phones must be switched off in all potentially explosive working areas.

Pay attention to possible danger spots on the floor and use the bannisters on stairs.

In the event of a fire or emergency, use the marked escape and rescue routes. Get yourself to safety immediately.

We have a defibrillator for first aid. Please pay attention to this sign and inform a member of staff in an emergency.

Note the location of fire alarms and fire extinguishers.
